May 2020 **Doctello:** *HTML, CSS, Bootstrap, Java Script*

- Doctello is medical website designed by me to help hospitals and it is also beneficial for different patient to classify their respective disease and their concern doctors. As it is having a special System Checker option which is very beneficial for new patient.
- Link to project: <https://github.com/amberkakkar01/Doctello>.

Dec 2019 **Survey-Form:** *HTML, CSS*

- The survey consists of 8 general questions that ask about 'working conditions' known to be potential causes of work related stress. These working conditions correspond to the six stressors of the Management Standards. The employee answers according to how they feel about these aspects of their work. It is absolutely confidential, so the employee can answer honestly.
